

GRUPO SEGURA, mindful of **climate change** and the need to conserve and protect the environment, is committed to preventing and minimising the environmental impacts arising from its activities in the stamping, welding and assembly of metal parts for the automotive sector.

Management is committed to aligning environmental management with quality management, occupational risk prevention and personal health, as well as with the organisation's strategies, by establishing environmental objectives and targets, assigning responsibilities, resources and implementation deadlines, all based on continuous improvement and sustainable development, thereby reducing the environmental impact of our activities.

Our commitment, on which this environmental policy is based, is aimed at:

- Preventing **air pollution** and protecting **soil and water** by using the most appropriate technology to reduce, as far as possible, **discharges, atmospheric emissions and environmental noise**.
- **Preserving biodiversity, animal welfare and integration into the natural environment**, whilst also avoiding any form of **deforestation**.
- Implementing responsible practices in the **management of chemicals**, ensuring the prevention of spills through containment plans, preventive maintenance and specific training.
- Promote and allocate resources for the **efficient use of energy**, the use of **renewable energy**, and progress towards the **decarbonisation** of our operations.
- Reducing **greenhouse gas** emissions and other pollutants.
- Manage **raw materials**, natural resources such as **water**, as well as fuels, packaging, consumables and chemicals in a sustainable and efficient manner.
- Apply **circular economy** principles, prioritising **waste reduction** and promoting the **recovery and recycling** of waste.
- Comply with applicable environmental **legislation and regulations**, and with other requirements arising from the needs and expectations of our stakeholders.
- **To train, raise awareness and ensure communication** and consultation on relevant environmental issues with employees, suppliers and customers, in order to ensure their alignment with our environmental commitment.
- To adopt a positive, responsible and **honest attitude** towards the community and to promote collaboration with stakeholders, using the material and human resources at our disposal.

Management extends this commitment to all employees and to those carrying out any activity within, or on behalf of, the **SEGURA GROUP**, so that they are mindful of all environmental requirements and comply with the guidelines of this policy, which will be reviewed periodically to ensure that it remains appropriate to the nature, scale and environmental impacts of the activities, products and services offered by this organisation.
